

First 20mm Water Meter in Australia to achieve NSC / NMI Pattern Approval...

After rigorous independent and successful testing by an NSC approved hydraulics laboratory; Elster Metering Pty Ltd proudly announce gaining NSC / NMI pattern approval for our already tried and proven 20mm V100 (PSM-T) domestic water meter.

(Certificate of Approval No: 14/3/1 for $Q_3 = 4$ kL/h, $Q_3/Q_1 = 200$).

You can now install this meter with full confidence knowing that as well as complying with the latest AS 3565.1-2004 specification, that it has this essential approval which is now mandatory under the latest National Measurement Act.
